(54) Title: REGULATABLE GENE EXPRESSION IN MAMMALIAN CELLS AND MAMMALS

A

B

C

+ RC

D

- RC

(57) Abstract: The present invention discloses
mammalian cells useful for regulated gene
expression in response to compounds being
gaseous or liquid at the cultivation temperature
of said mammalian cell, and non-human
mammals comprising such mammalian cells.
The invention further discloses methods for
producing proteins in mammalian cells in a
regulated way in response to inducing gaseous
or liquid compounds. The invention is further
directed to isolated nucleic acids useful for
constructing said mammalian cells.
